Abstracts
Abstracts. 1986; 14:83-95

Acquired immunodeficiency syndrome
Acquired immunodeficiency syndrome: challenge to the infection control practitioner (Valenti). 1986; 14:243-5 (Editorial)
The acquired immunodeficiency syndrome epidemic: issues for health care professionals. Ninth Annual National Foundation for Infectious Diseases Lecture (Jaffe). 1986; 14:272-9 (Special article)
Survey of hospital personnel on the understanding of the acquired immunodeficiency syndrome (Valenti and Anarella). 1986; 14:60-3

Adenoviral disease
Outbreak of fatal adenoviral type 7a respiratory disease in a children's long-term care inpatient facility (Alpert et al). 1986; 14:188-90 (Brief report)

Adult learner
Education of the adult learner: a practical approach for the infection control practitioner (Jackson and Lynch). 1986; 14:257-71 (CEU article)

Aged
Influenza roulette: did data demonstrate vaccine efficacy? (Renzullo and Cartter) (Letter); (Christie and Marquis) (Reply) 1986; 14:146-7

AIDS; *see* Acquired immunodeficiency disease

Air-fluidized therapy unit
Microbial survival and dissemination associated with an air-fluidized therapy unit (Vesley et al). 1986; 14:35-40

Authority
Meeting the challenge: minimum authority, maximum responsibility. Seventh Annual Carole DeMille Lecture (DeGroot-Kosolcharoen). 1986; 14:279-81 (Special article)

B

Bacterial endophthalmitis
Outbreak of bacterial endophthalmitis after cataract surgery and lens implantation: lack of direct evidence for exogenous contributing factors (Klimek et al). 1986; 14:184-7 (Brief report)

Blood culture report
Understanding the blood culture report (Flournoy and Adkins). 1986; 14:41-6

Book reviews
Book reviews. 1986; 14:48-50, 96-7, 196, 242, 291-2

Brief reports
